

## Torpedo Missed American Liner By Twenty Yards

Gun Crew Fired Sixty-two  
Shots at Buoy, Taking  
It for Periscope

## Destroyer Saves Ship

Returning Seafarers Tell of  
Four Encounters with  
Submarines

Passengers arriving at American  
port yesterday told of four encounters  
with U-boats.

One American liner, which landed  
eighty-eight cabin passengers, narrowly  
escaped a torpedo which ripped its  
way through the water only twenty  
yards astern and later wasted sixty-  
two shots at what appeared to be the  
torpedoing tower of a submarine, but  
which turned out to be a harmless gas  
buoy that had broken loose from its  
anchorage.

The vessel left a British port two  
weeks ago, but was twice held up by  
the British Admiralty, the second time  
for two days, when it was learned there  
were a number of submarines along  
the lane she was to follow. After she  
finally started, the torpedo appeared  
at 11:30 o'clock one morning, with such  
suddenness there was no time to zig-  
zag the ship. The missile passed. No  
submarine was sighted on that occa-  
sion.

Gun Blow Up Gas Buoy

Two days later the gas buoy was  
sighted 2,000 yards off the port bow,  
and the passengers donned life belts and  
the boats were swung out as the gun

crew fired sixty-two shells at the bob-  
bing target. The sixty-second shot  
struck it squarely and it blew up and  
sank.

Another ship which docked at an  
American port—one of the largest now  
engaged in transatlantic travel—reported  
a battle between a submarine and a  
destroyer which was continuing on  
July 9. The destroyer suddenly  
was seen to steam away to starboard  
and when about five or six miles dis-  
tance opened fire on the U-boat, which  
returned the fire as she submerged. Six  
shots were fired before the submarine  
disappeared.

U. S. Destroyer Saved Ship

Members of the crew of the British  
steamship Cranmore, which was re-  
ported to have been sunk by a U-boat  
about 180 miles west of Ireland on  
June 7, returned with the news that  
the vessel was saved from destruction  
by an American destroyer. Five of  
the Cranmore's plates were stove in by  
a torpedo, but the destroyer chased  
the U-boat away before it could launch  
a second missile. The Cranmore was  
able to make an Irish port under her  
own steam.

George F. Griffin, of 212 Schermer-  
horn Street, Brooklyn, who sailed on  
the Standard Oil tanker Moreni on  
May 3, brought back the story of how  
the ship was sunk by the U-38 in the  
Mediterranean on June 12, following  
a two-hour battle. He and nine oth-  
ers were wounded by shrapnel and  
the U-boat, which came up and took  
their picture in their lifeboats. They  
were picked up later by a Spanish boat  
and taken to Barcelona.

## Troop Train Wrecked In Texas; One Killed

Four Coaches Turn Turtle  
and Three Are Derailed;  
Cause Not Known

Marshall, Tex., July 18.—One Ameri-  
can soldier, William Stonebreaker, was  
killed and five other soldiers injured,  
one seriously, when four coaches of a  
troop train turned completely over  
and three other cars were derailed at  
Shamrock, near Victoria, La., on the  
Texas & Pacific Railway today.

The cause of the wreck has not been  
determined.

A special train carrying physicians  
to the scene has left here. The injured  
were taken to Alexandria, La.

## Only 18 British Ships Sunk in Week; Average Still Low

U-Boats Fail to Make Ex-  
pected Spurt in Work  
of Destruction

## 8 Fishing Craft Lost

Increased Vigilance of Al-  
lied Patrol May Have  
Checked Germans

London, July 18.—Submarine losses  
for the second week in succession have  
remained at a very low average, ac-  
cording to the official figures issued  
here by the Admiralty today. These  
show that fourteen British merchant  
ships of more than 1,600 tons and four  
British vessels under that tonnage were  
sunk during the week ended Sunday,  
either by U-boats or mines. Eight fish-  
ing vessels were also sent to the bottom.

The increase in destruction over the  
week previous is represented by the  
fishing craft and by one small steamer.  
Usually, when the week's toll of enemy  
submarines on British shipping has  
proved unusually light a decided jump  
in effectiveness has been noticed in the  
week following. The rule failed to hold  
good last week, however, either on ac-  
count of the increased vigilance of the  
British, French and American patrol,  
or because the Germans failed to outfit  
a fresh fleet of submarines in time to  
send up the average.

During the week there was a slight  
increase in the number of arrivals and  
departures of ships of all nationalities,  
the total movements being 5,748. Twelve  
British vessels were unsuccessfully at-  
tacked. One of the larger vessels was  
sunk in a previous weekly period, but  
not reported.

The variations in the destructive  
curve of the U-boat campaign from  
week to week since the most serious  
losses were suffered may be seen in the  
following table:

	British vessels sunk— Over	Under
Week ended	1,600 tons.	1,600 tons.

## General Austen Buried

Brigadier General David E. Austen,  
retired chief of coast artillery, was  
buried yesterday after military ser-  
vices in the 13th Coast Defence com-  
mand's armory in Brooklyn and re-  
ligious services at Grace Church.

At the armory the Rev. Dr. Nehe-  
miah Boynton, chaplain of the 13th,  
delivered the eulogy. At its conclusion,  
buglers sounded "Taps," and the sol-  
diers sang "Nearer, My God, to Thee"  
and "Rock of Ages."

The regiment, headed by its band,  
then accompanied the funeral cortege to  
Hanson Place, from where it pro-  
ceeded unescorted to Manhattan. At  
the doors of Grace Church the 9th  
Coast Defence Command was drawn up  
as a guard of honor.

Following the services, conducted by  
the Rev. C. C. Bentley, the guardsmen  
accompanied the body to Trinity Cem-  
tery, where a volley was fired over the  
grave by a battalion of the 7th Regi-  
ment.

## Alley Festa Yields \$69,683.54

The proceeds of the Alley Festa held  
in Macdougall Alley in June were \$69-  
683.54, according to a statement made  
last night by John Moffat, chairman of  
the executive committee. Liberty bonds  
to the amount of \$640,450 were also  
sold, bringing the total receipts of the  
festa up to \$610,133.54. The proceeds  
will be divided among thirty-four war  
relief societies who had booths at the festa.

## Carranza Men Plead Innocence

"The representatives of Carranza here  
say that this information did not go  
through the Carranza element, that  
some of these wireless stations are in  
control of those who are opposing Car-  
ranza and are opposing the United  
States and from these could have come  
the information."

"Those who are accused by the Car-  
ranza people retaliate, saying that  
some of Carranza's forces have been  
betraying the United States from the  
beginning, have never been sincere,  
and openly confess that they may be  
used by the enemies of this country as  
sources of information."

"This government is now investigat-  
ing the whole situation, and will have  
it be the truth the public will have it,  
and the United States will take such  
action as shall be made necessary by  
the disclosures."

## Daniels Doesn't Agree

Secretary Daniels said today a week  
ago he was satisfied there were no wire-  
less stations in Mexico capable of  
transmitting messages to Germany.  
It could be learned today  
whether the visit of Ambassador  
Fletcher, who left Mexico City sud-  
denly for Washington, arriving too late  
to confer here with Secretary of State  
Lansing, is in connection with the  
charge against Mexico. Mr. Fletcher  
before arriving at Washington had a  
conference of several hours with Sec-  
retary Lansing, on the train, while the  
latter was en route for New York State,  
where he is spending a three weeks'  
vacation.

Mr. Fletcher has had long confer-  
ences with Acting Secretary Polk, who  
is understood to supervise the intelli-  
gence division of the State Depart-  
ment, and who would naturally, there-  
fore, receive reports from Mr. Fletcher  
respecting unneutral activities in Mex-  
ico.

## Spies Send News Through Mexico, Lewis Charges

Troop Movements Made  
Known to Berlin by  
Wireless, He Says

## To Censor All Cables

Secretary Daniels Extends Or-  
der After Effective Plan Is  
Submitted to Him

(From The Tribune Bureau.)  
Washington, July 18.—The admin-  
istration knows that information of the  
American troop movements reached  
Germany through Mexico, Senator  
Hamilton Lewis, of Illinois, declared  
today. Mr. Lewis added that an in-  
vestigation was being made.

"The administration heads have been  
informed," said Senator Lewis, "that  
much of the knowledge which Ger-  
many got of the movements of Ameri-  
can troops and of our conduct of the  
war was caught on the wireless stations  
of Mexico and transmitted to Germany."

"We have reason to believe that the  
ships carrying the American soldiers  
were betrayed to Germany through  
Mexico, and that the dispatches sent  
from the ships to this government  
were caught on the wireless that was  
set at a Mexican port, and that be-  
cause of such information they were  
pursued by submarines and their land-  
ing announced in Europe days before  
our navy was ready to tell of it."

Carranza Men Plead Innocence

"The representatives of Carranza here  
say that this information did not go  
through the Carranza element, that  
some of these wireless stations are in  
control of those who are opposing Car-  
ranza and are opposing the United  
States and from these could have come  
the information."

## All Cables Under Atlantic Ordered Censored by Daniels

Washington, July 18.—Secretary of  
the Navy Daniels signed the following  
formal order this morning for the ex-  
tension of the cable censorship to all  
transatlantic undersea communications.

"Whereas, The existence of a state  
of war between the United States and  
the imperial German government makes  
it essential to the public safety that  
no communication of a character  
which would aid the enemy or its al-  
lies shall be had;

"Therefore, By virtue of the power  
vested in me under the Constitution  
and by the joint resolution passed by  
Congress on April 6, 1917, declaring  
the existence of a state of war, it is  
ordered that all companies or other  
persons owning, controlling or oper-  
ating telegraph and telephone lines or  
submarine cables are hereby prohib-  
ited from transmitting messages to  
points without the United States and  
from delivering messages received  
from such points, except those per-  
mitted under the rules and regula-  
tions to be established by the Sec-  
retary of War for telegraph and tele-  
phone lines, and by the Secretary of  
the Navy for submarine cables.

"To those departments, respectively,  
is delegated the duty of preparing and  
enforcing rules and regulations under

this order to accomplish the purpose  
mentioned.

"This order shall take effect from  
date."  
"Since May 4," said Secretary Dan-  
iels, "the cable censorship has been in  
effect with respect to South and Cen-  
tral America, Mexico and the Orient.  
Transatlantic cables were exempted  
temporarily out of our desire to learn  
the workings of the French and British  
censorships, in order to assure effective  
cooperation without duplication."

"George Creel, chairman of the Com-  
mittee on Public Information, has been  
conducting this study, and his recom-  
mendation, made as the result of in-  
vestigation and conference, carries with  
it an effective plan of procedure."  
"Commander David W. Todd, director  
of naval communications, will continue  
his executive direction of the cable  
censorship, and the New York office is  
in charge of Commander Arthur B.  
Hoff."

## Ask U. S. to Lift Zone Ban on Schreiner

Insurance Men Declare His  
Presence in New York Is  
Vitaly Necessary

Representing that the presence of  
Carl Schreiner, the United States man-  
ager of the Munich Reinsurance Com-  
pany, is necessary in New York, a com-  
mittee of insurance agents yesterday  
filed a petition with United States  
Marshal Thomas D. McCarthy asking  
that a special pass to the barred zones  
in New York, good for one visit only,  
be issued him.

McCarthy referred the petition, with  
recommendations, to Washington for  
action by the Department of Justice.

Schreiner is one of those whose ap-  
plication for a permit to visit the  
barred zones has not been successful,  
and as he did not receive a permit to  
reside in Hartford, Conn., he insists on  
staying in the Lake George region,  
having the impression that if he visits  
New York he will land on Ellis Island.

When the announcement of the re-  
quest for a special pass was given out  
it was said that something like \$250-  
000,000 is involved in the transactions  
for which Schreiner is needed. Men  
of the insurance district say that the  
petition was a move to secure in an  
unusual way that which had been with-  
held when asked in the regular manner.

The names of the committee urging  
a pass for Schreiner and the names of  
the companies they represent are with-  
held from publication at their request  
to Marshall McCarthy.

It was officially denied yesterday that  
Schreiner was as was previously re-  
ported, any connection with the Russia  
Insurance Company, of Petrograd, Rus-  
sia, with American headquarters in  
Hartford, Conn. This confusion appar-  
ently arose from the fact that Carl F.  
Sturhahn, the United States manager  
of the Russia, was once associated with  
him in the management of the Munich  
Re-Insurance Company. Sturhahn  
left him fourteen years ago to take the  
management of the Russia.

This company up to the breaking out  
of hostilities three years ago handled  
all of its foreign business, including  
that of the United States, in Berlin.

It was changed then, Copenhagen be-  
ing made the headquarters to which all  
American data were sent for a time.  
Eighteen months ago, after a visit to  
this country of the general manager of  
the company, an American business  
was ordered sent to London.

## Archibald McLellan Dies

Archibald McLellan, editor of Chris-  
tian Science periodicals, an officer of  
First Church of Christ, Scientist, in  
Boston, died yesterday at his home,  
Brookline, Mass. He was sixty years  
old.

Mr. McLellan was born in Moncton,  
N. B., and spent his earlier years in  
Chicago, where he was at one time as-  
sociated with the R. G. Dun mercantile  
agency. While there he interested him-  
self in Christian Science and later be-  
came a member of the Christian Sci-  
ence Committee on Publication, for  
Illinois.

From 1903 until his death, Mr. Mc-  
Lellan was a member of the Christian Sci-  
ence Board of Directors. He was a  
thirty-second degree Mason and was  
actively interested in the work of Ma-  
sonry. He was also a member of the  
Press Clubs of Washington and Boston  
and of the Canadian Club of Boston.

## Robert Bustard

Paterson, July 18.—Robert Bustard,  
of 127 Park Avenue, father of the Rev.  
Dr. W. W. Bustard, pastor of the Euclid  
Avenue Baptist Church, Cleveland, died  
Tuesday night at the Paterson General  
Hospital, aged eighty-two years. He  
had been ill since June, when he was  
injured in a fall. His wife died several  
years ago as the result of a fall.

Besides the son in Cleveland Mr.  
Bustard leaves a daughter, Mrs. Wil-  
liam T. Magee, of Passaic, N. J., wife of  
Frederick Magee; Thomas M. Bustard,  
district clerk in Passaic, and Joseph  
L. Bustard, of Paterson.

## Allies to Invite U. S. and Greece To Conference

America's Part in War Will  
Be Discussed at Paris  
Meeting

## To Act Against Turkey

Entente Plans to Drive Her  
Out; Albania Claims  
To Be Heard

(From The Tribune Bureau.)  
Washington, July 18.—The Paris In-  
ter-Allied Conference will be held this  
month, it was learned in a diplomatic  
quarter today. Although no announce-  
ment has been made, it is believed  
the United States and Greece will be  
invited to participate. If the invita-  
tion is accepted, it is likely that Am-  
bassador Sharp at Paris will represent  
the United States and the Greek Min-  
ister to France the Athens govern-  
ment.

While the programme of the confer-  
ence has been kept secret, it is known  
that the Balkan question will be  
undergo revision, owing to the entry  
of Greece into the war. The part being  
played by Turkey in the war, however,  
is expected to be the most prominent  
subject before the conference, owing  
to the necessity for America to continue  
the principal source of supply and main  
liaison.

The problem of supplies and com-  
munication, principally sea lanes, im-  
perilled by Germany's submarine cam-  
paign, is the most difficult confronting  
the Allies, and their hope is in Amer-  
ica to overcome that menace.

News was received in an official  
quarter today that in the considera-  
tion of the Balkan question the Allies  
will consider the situation from the  
point of view of the Balkan situation  
was said to suggest the freeing of  
Greek territory of enemy forces, the  
driving back of the Austro-Bulgarian  
armies and an agreement on a plan  
for eliminating Turkey from the war.

Italy, it was learned authoritatively,  
will not oppose Greek claims at the  
conference, being desirous of finding  
every assistance to the new regime in  
Greece and to help the Hellenic nation  
to realize its aspirations.

Leaders of the Albanian race have  
appealed to the Italian government to  
represent them at the Allied confer-  
ence. A dispatch received here from  
Rome today says that at a meeting of  
Italo-Albanians in Naples the Albanian  
delegates adopted a resolution request-  
ing the Italian government to take up  
at the conference the question of the  
boundary of Albania.

The Albanians ask that Italy prevent  
any attempt to diminish the importance  
of the Albanian race and population on  
the eastern shore of the Adriatic, and  
insist on the restoration to Albania of  
the lands between Antivari, Prevesa,  
Podgoritz, Uskub and Kumanovo and  
Florida, down to the Vardar River.

This so-called restoration would re-  
quire a rectification of the boundary  
of Albania as established by the  
London Conference in 1915, which  
was not satisfactory to the Albanians.  
As fixed by that conference, the bound-  
ary cuts from a natural outlet to the  
sea, several important centres of Al-  
banian population.

Whether the Allies will grant the Al-  
banian request was thought today to  
depend chiefly on the attitude of  
Greece, and it is believed Greece will  
oppose the demand, desiring Northern  
Epirus, which is included within the  
Albanian territory.
